

Biopythos
Céramique innovante

Lay down egg 225 litres

This product promotes natural suspension of the leed thanks to **the movements of vortex** due to its ovoid shape. Thanks to an **individual and rotative support**, this stoneware egg is suitable for various applications such as fermentation, maturation or wine tasting. Due to its lying position, **the surface of contact with the lees is increased**.

- Smooth interior for easy cleaning and sanitizing
- Inert ceramic to chemical and climatic aggressions
- Long lifespan

Specifications

High	Diameter	Opening Diameter	Weight	Permeability	Capacity
1000 mm	750 mm	50 mm	50 kg	Tailored	225 Litres

Chemical composition
